Commodore's Report

Hi all and welcome to another month.

It has been great to see many of our members involved in winter sailing over the last month. The regular reports from the keeler fleet show that they were having a great season with excellent participation, as crew, from other members of the club. Hopefully, they can resume their season once restrictions in Auckland have been lifted.

Meanwhile the winter series at Rotoiti is attracting large fleets with excellent sailing conditions being the norm. We had two races there earlier this month. I particularly enjoyed pausing in one of their many bays to relax between races 1 and 2 and enjoy the wonderful setting that is Lake Rotoiti.

It was also pleasing to see a few of our members join in with the Ngaroto winter regatta. Unfortunately, I was unable to attend, but I have been told that the conditions were very relaxing, although a bit more wind would have been appreciated.

It was also pleasing to see a good turnout at the first of this season's safety evenings. We are very lucky in this club to have a group of very experienced sailors. Quality seamanship is one of the features of our club and it is good to see people are taking this aspect of their sailing seriously. There will be a follow up evening next month which will be a good opportunity to test what you have learnt. We also hope to have an on the water safety session at some stage during the season. Particular thanks go to Dean for organising this.

This month's Nog-n-natter will be presented by Alan MacDonald. Last season he did an evening on ropes and knots. This was very well received, and we are very grateful that he has agreed to run a followup session. This month at Rotoiti a boat was dismasted following a collision. This is a good reminder to me that winter is a great time to give your rigging a good check and to replace anything that looks a bit dodgy. In much the same way as you would replace the cam belt in your car (before it breaks), you should also consider replacing parts of your rigging on a scheduled basis. I wonder how many boats are in our club that are still running their original standing rigging?

Finally a quick reminder to get your compound applications in if you haven't done so already. These are due at the end of the month.

Eight weeks to go until the start of the season!

James
